

Welcome to the S²DS²A 2015

The Interdisciplinary Graduate School of Science and Engineering at Tokyo Institute of Technology (IGS-TOKYOTECH) has actively collaborated for more than 15 years with the JUSTSAP (Japan-US Science, Technology and Space Application Program), which has been established in 1990 for eliminating the awkward relationships brought from the “U.S. Super 301”, especially in space exploration fields. The activities of the JUSTSAP have been based on honestly speaking and information exchanges without any formality at the personal level under feeling free to talk and work each other.

The Japan Space Forum (JSF), has held “IS³DU (International Symposium on Sustainable Space Development and Utilization for Humankind)” from 2012 for promoting the importance of space situational awareness with the subtitles of “Orbital Space Debris – Challenge and Opportunities” (March 1-2, 2012), “Expectations to a Cooperative Framework in Asia-Pacific Region” (February 28-March 1, 2013), “Strengthening Global Partnership in SSA Activities” (February 27-28, 2014).

These activities should be performed not in any claimed superiority and merit of one country but in the global recognition and understanding. Here, the present Symposium will be held in order to continue patiently on these matters under our two organizations, the IGS-TOKYOTECH and the JSF, as appropriate mediators for best thought building on the current social environment in global.

Please come and join us for the present Symposium on “Suitable Space Development and Space Situational Awareness”.

Outline of the Symposium

1. Title :
International Symposium on Sustainable Space Development and Space Situational Awareness (S²DS²A 2015)
2. Date :
February 26(Thursday), 2015 10:00 – 17:50
February 27(Friday), 2015 10:00 – 17:50
3. Venue :
THE GRAND HALL (3 minute walk from JR Shinagawa station)
4. Organizers :
Interdisciplinary Graduate School of Science and Engineering, Tokyo Institute of Technology
Japan Space forum
5. Contents :
(1) Welcoming Remarks:
(2) Key Note Speeches:
(3) SSA Activities in Each Country/Organization:
(4) International Alliance in Space Development:
6. Supports from Government and Public Sectors :
CAO, MIC, MOFA, MEXT, METI, MOD, SJAC, JASMA
7. Exhibition Sponsors from Private Sectors :
Analytical Graphics Inc., LSAS Tec. Co. Ltd., IHI Corp., IHI AEROSPACE Co. Ltd.,
NEC Corp., NEC TOSHIBA Space Systems, Ltd., HIREC Corp., FUJITSU Ltd.,
Mitsubishi Heavy Industries, Ltd., Mitsubishi Electric Corp.
